

BIG BATTLE IS RAGING

Boer and British Armies Face Each Other Near Ladysmith.

ENGLISH FORCE WEAK

Burghers Have 30,000 Men In Line and Swear to Win Or Die.

FIGHTING GOING ON THREE MILES FROM LADYSMITH.

Gen. White Sends Out a Force to Meet the Boers and Numerous Skirmishes Are Taking Place—Rival Forces But Four Miles Apart At Kimberley—Plague of Locusts at Kimberley—Boers Reported to Have Shot Civilians at Dundee—Boers Afraid of Basutos—Dum-dum Bullets at Dundee Left By British.

Ladysmith, Oct. 28.—[Special Cablegram to The Gazette]—A strong force of artillery, mounted infantry and cavalry was sent out by General White today to meet the advancing Boers on the Helpmakaar road. They soon came in touch with the enemy, and an artillery duel began.

Fighting is going on three miles from Ladysmith. Details are lacking. Before General White's force moved out numerous skirmishes had taken place between the Boers and British north and west of town.

The Boers seem determined to push on for a battle, with the entire British forces here.

Conditions ripe for a big battle.

Cape Town, Oct. 28.—[Special Cablegram to The Gazette]—Today the state of affairs in South Africa is ripe for a big battle. Leaving Kimberley out of the account, the theater of action has narrowed down to a small space of land within a compass of maybe fifteen miles, with Ladysmith, in Natal, as its position of supreme importance. In the camp at that place General Buller's forces which retreated from Dundee and Glencoe after the battle of Elandlaagte, are now conjoined to those of the chief commander, General White.

Somewhere north of Ladysmith, certainly within less than a day's march, is General Joubert, with an army whose strength may be estimated at 14,000 men. Before him, leading to the British position, lies a main road. East of Ladysmith and also within easy marching distance is an army of Boers from the Orange Free State, which numbers probably 16,000 men.

Armored Train Checks the Boers

Bulawayo, Rhodesia, Oct. 28.—[Special Cablegram to The Gazette]—Lieut. Dlewellyn with a force of Rhodesia police and railway men has been checking the Boers north of Ottsi station on the Cape railway. Assisted by an armored train he engaged the Boers near Lobatse on the seventeenth, killing a number of the enemy.

Plague of Locusts at Kimberley

Cape Town, Oct. 28.—[Special Cablegram to The Gazette]—It is reported that Kimberley is suffering from a severe plague of locusts. The British and Boers are but four miles apart.

A Reuter dispatch from Ladysmith says the Boers shot down civilians at Dundee without provocation.

Boers Afraid of the Basutos

Cape Town, Oct. 28.—[Special Cablegram to The Gazette]—During General Buller's retreat from Glencoe the Boers shelled the vacated position where the British had left their waterpots rigged up in rude resemblance to men. The Boers warily charged the waterpots only to find that the birds had flown.

The Afrianders are endeavoring to persuade Milner, the British high commissioner, to issue a proclamation restraining the Basutos from attacking the Boers.

Dum-dum Bullets at Dundee.

Pretoria, Oct. 28.—[Special Cablegram to The Gazette]—A dispatch says

that Krueger states that the dum-dum bullets were found at Dundee after the British evacuation. The younger Boers were anxious to use them but were restrained.

British Nurses Are Discharged.

Lourenz-Marques, Oct. 28.—[Special Cablegram to The Gazette]—A Johannesburg dispatch says that English nurses have been evicted from the hospitals there, the Boers insisting that English women are not fit to nurse Dutchmen.

Boers Evacuate Klipdam.

Cape Town, Oct. 28.—[Special Cablegram to The Gazette]—The Boers are reported to have evacuated Klipdam, north of Kimberley, and have apparently gone to reinforce their forces at Mafeking.

DEWEY CANNOT COME

Makes a Positive Statement That He Will Not Come West This Fall.

Washington, D. C., Oct. 28.—Admiral Dewey will not visit Chicago or the west on a protracted transcontinental trip to San Francisco this fall. FREIGHT CARS SCARCE HERE

You Will Find But Few Empty Ones In Local Yards.

Empty freight cars are a scarce article in Janesville freight yards today. Rush of business on both the Milwaukee and Northwestern roads, is the reason.

More than ever does the volume of general trade and industry tax existing transportation facilities handling the same. From nearly all parts of the country, but particularly from the west and south, come reports of car scarcity. Some of this condition seems to be the result of a diversion of traffic ordinarily carried on by water routes to already crowded railroads.

PECULIAR REVENGE OF A DUCK HUNTER

MERRY WEDDING PARTY FRIGHTENS AWAY DUCKS.

He Blazed Away At Them At Short Range and Fills A Number of Them With Bird Shot—This Thing Happened Near La Crosse.

La Crosse, Wis.—[Special Telegram to The Gazette]—A country road just outside of La Crosse was the scene of what came very near being a very tragic ending of a merry wedding party.

As a consequence of the episode four persons are nursing wounds from bird-shot discharged by a small boy from a double barreled shot gun.

The youngster claims that the ducks that he was laying for were frightened away by the hilarious wedding party and in his disappointment the infuriated youth turned his gun upon the merry makers and fired.

August Papertus and Mary Hanson were married in a small country church near La Crosse. They were with a party of friends and all were returning to the village in a bus, singing and joking and laughing and having the best sort of a time. They drove by a marsh and evidently disturbed the hunting operations of a youngster from a neighboring farm house, named Herman Hornfeldt. The ducks were frightened by the merry makers and in a moment of anger the boy turned his gun on the wedding party and let go with both barrels at short range.

In a moment there was confusion in the bus and screams of pain and terror were heard. The driver was the principal sufferer, at least three shots penetrating his flesh. Mrs. Milk of this city, one of the party, received five shots in her forehead. Other members of the party are in for slight flesh wounds.

America had settled all her controversies with Great Britain with peace and honor, and the English-speaking people had achieved and were daily achieving wonders for civilization.

MANY ARE BUYING IN EGGS

Local Speculators Say That a Shortage Is In Sight.

Local speculators are losing no sleep these days in buying for cold storage packing. The buying of thousands of Rock county chickens of late for shipment east has something to do with the present scarcity of eggs.

It is said that eggs will be high this winter as the summer shortage prevented accumulating a good stock in cold storage. Those who have hens in good quarters for winter laying and maintain their winter condition by the inexpensive means of providing them with a certain amount of green stuff and a meat substitute for worms, will have an unusually profitable season.

Row In Vanderbilt Family Over the Will—How a Contest Was Avoided.

New York, Oct. 28.—Cornelius Vanderbilt has resigned his position with the New York Central Railroad company, and will henceforth have no intercourse, socially or in business with the members of his family. He bitterly resents the implication that he is the beneficiary of his brother's generosity. He is equally emphatic in the statement that the settlement was forced by him on the alter native of a contest, and that the \$6,000,000 added to his inheritance was in no sense a gift, but simply the price of a non contested will. The man who sacrificed so much for the love of Grace Wilson will go into the banking business with his wife's father, R. T. Wilson, and henceforth the parting of the ways between young Cornelius and the members of his family will be more marked than ever.

REV. F. L. MARYON LEAVES TRINITY

MASON CITY DIVINE TO FILL
LOCAL PULPIT.

Janesville Rector Will Be Chaplain At
Kemper Hall, Kenosha, Wis.—Has
Made Many Warm Friends Since
Being a Resident of the Bower
City.

The Rev. Frederick Lee Maryon, rector of Trinity Episcopal church of this city, whose resignation takes effect Nov. 1, to accept the position of chaplain at Kemper hall in Kenosha, will be succeeded by the Rev. J. A. M. Richey of St. John's church of Mason City, Ia. The Rev. Mr. Maryon will go to Kenosha next week.

Rev. F. L. Maryon's farewell to the members of his parish appears in the columns of the current number of The Angelus, published in this city. He says:

"It is very difficult for me to know how to put together my parting words to you. I have been amongst you just long enough to know and to love you. And I venture to think that I have found my way, to some extent, into your hearts. I am led to believe this, seeing that in the greatest sorrow that ever came to me and my wife. You not only helped us in a material way, but were also the greatest comfort to us in a friendly way—for which God and His Infinite mercy ever bless you. The work of God in the parish has been wonderfully blessed in the number of baptisms, confirmations and communions made, and that in spite of some insignificant opposition. But we must ever remember that in working for God there will be little drawbacks, otherwise we should become proud and forget the virtue of humility. Go on and work, work ever and always for the Catholic faith, and little by little outsiders will come to know that you are for God and His church, and not for your own little fancies. People can only be drawn into the fold by love, and that love can best be shown by loyalty to Jesus, and His Spouse, which is the church. I hope in the future to have many opportunities of visiting you and renewing that friendship which I trust will not cease on this side of the grave or the other. Asking for your prayers, and commending you most sincerely to the loving care of Father, Son and Holy Ghost, I am always, my very dear friends, Your humble friend and priest, 'FREDERICK LEE MARYON.'

BURNING LEAVES IN STREETS

Ordinance Forbids It but Few Live Up to It Here.

An ordinance exists on the books of the city of Janesville forbidding the practice of burning leaves on the streets and alleys. It might as well never have been passed.

The ordinance was passed for good and sufficient reasons and should be observed. The smoke fills the neighborhood and creeps into the houses. The smoldering piles left in the evening are a menace to the residences in case a high wind should come up during the night, and the fire and smoke frightens horses as well as being a general nuisance.

If the other speakers are as able as these three, it will prove a most profitable gathering.

It has been many years since so much local property has changed hands as in the past few months. The same boom in real estate holds good throughout the state.—Edgerton Reporter.

Talk of the Philippines.

Many of the old timers who met him at the depot commented favorably on the promising appearance of the great fighter. His step was light and elastic, his skin clear and

healthy, and, in response to the many inquiries after his health, he asserted that "he never felt better."

Tonight Fitzsimmons meets Geoffrey Thorne, England's champion middle weight, in the wind up of the big fight carnival at Tattersall's. If he succeeds in whipping the British representative he will be at once matched to meet the winner of the Jeffries-Sharkey battle, which takes place Nov. 3. Speaking of the fight between the giant Californian and the sailor pugilist, Fitzsimmons said:

"As far as the Jeffries-Sharkey fight is concerned, I think it is a 'toss up' which will win. Place your money and take your choice. As regards myself, my manager, Martin Julian, has secured the signatures of both men to a set of articles which stipulate that I shall be given a match with the winner within eight weeks after the coming fight for the championship has taken place. This is the chance I want, and I am satisfied that when Jeffries and I meet again there will be a different story to tell. My right arm is in good shape again, as I intend to prove tonight when I stack up against Thorne. The Englishman is all right, they tell me, and he will need to be, for I am in good condition, and I have a great deal at stake on the outcome of the bout."

Joe Choynski knocked out Steve O'Donnell in the sixth round of their contest before a North Side club last night. It was Choynski's battle from the first bell, and he could have finished O'Donnell in the first round if he so desired. Steve was not in his usual form, which means that he fought like a fourth rater.

Will Smith of the Midlothian county club, open golf champion of the United States, again demonstrated his supremacy over his fellow professionals yesterday by finishing first in the annual open tournament of the Washington Park Golf club.

McCoy Defeats "Biffy" Stiff. St. Louis, Mo., Oct. 28.—Last night's fight between "Kid" McCoy and Billy Stiff of Chicago, was won by McCoy in the thirteenth round. He had the better of it from the start, Stiff appearing to be afraid of him.

John J. Sullivan Visits Jeffries. Asbury Park, N. J., Oct. 28.—Champion Jeffries, true to his determination to taper off in his training from now until the day of the big battle with Sharkey, treated himself to a short sprint of about five miles this morning, winding up to the cottage in the pink of condition, to be greeted by John L. Sullivan and about thirty or forty other sportsmen who had invaded the picturesque grounds, bent on giving Jim a genuine surprise.

Sharkey Is in Good Condition.

New York, Oct. 28.—When Tom Sharkey finished his practice fight with Bob Armstrong at his training quarters today he remarked feelingly: "How I wish that fight was to be tonight, as it was first scheduled. I don't believe I ever felt better in my life." The pugilist certainly looked the picture of health. He had done a hard, faithful day's training, but at the end of it all his eye was clear and his step buoyant.

THIS YOUTH IS TOO BRIGHT

Intimated That His School Teacher Was a Bird

At the Washington school, in the First ward a certain youth, in short pants, was told by his teacher to go to the blackboard and draw a picture of a bird. He went to the board as ordered.

When he had finished his work it was quite evident that he had drawn a good likeness of his teacher as she is often seen riding about in her handsome high back vehicle.

"I thought I told you to draw a bird," said the teacher in a loud tone.

"That's just what I did do," said the smiling youth as he pointed to the picture. "Aint she a bird?"

The boy is still at school.

KEEP CARPETS OUT OF PARKS

Police Will Allow No More of It in the Bower City.

There will be no more cleaning of carpets allowed in the city parks of Janesville. As strange as it may seem, this has been an old custom in the Bower City. The police say that they will allow no more of it at any time of the year.

A physician says that carpet beating should not be allowed within the city limits. Disease germs are set free and are likely to cause sickness. They might be taken to a suburban farm, where nothing except dust can be raised anyway.

NEWS FROM THE COUNTY

Afton News.

Afton, Oct. 27.—Work was begun last Monday morning on the new Brickman block, the force of men employed thereon being Carpenters Oscar Anderson, Fred Kethelohn, Jacob Ehringer, Dick Baling and John P. Powers. The new building will be 60x32, with 24-foot posts, a store occupying the first floor, while the second will be used as a hall. The many friends of County Clerk Frank P. Starr, here in his old home, will extend hearty congratulations on his marriage, an account of which the wideawake Gazette man gave us last night. It had been a source of conjecture among the "boys" here as to just what Frank would do in regard to a marriage license, but he very gracefully solved the problem by escaping to Rockford. George B. Osgood and family and F. R. Eldredge and sisters, Alice and Hayla, attended the Bowen Severson wedding at Evansville Wednesday evening. Owen Gower is improving the appearance of his residence by a new coat of paint. Miss Lulu B. Wood of Stebbinsville, was the guest of Mr. and Mrs. C. F. Waite over Sunday. Rev. Howland Hanson of Beloit, will deliver his lecture on the "Life of Jesus" at the Baptist church here next Saturday evening, Oct. 28. The lecture is illustrated with stereopticon views and admission is free, a collection being taken to defray expenses. All are invited. Afton school will re-open Monday. M. J. Caron and family have moved to Milwaukee and Mr. Caron has secured a position in the railway shops.

A Golden Wedding.

On Wednesday, Oct. 26, at 12 o'clock noon, friends and relatives numbering about seventy-three gathered at the home of Mr. and Mrs. Harry Newton, North Johnstown, to join with them in celebrating the fiftieth anniversary of their marriage. Mr. and Mrs. Newton have for many years resided in the community and have at all times of need and bereavement been ready with willing hands and hearts of sympathy to render assistance. The gathering was on the plan of a surprise and only tends to show the high esteem in which the worthy couple are held.

Rev. Longfield in a few well chosen words presented them with two easy rocking chairs which may help to rest and comfort them "down the western slope of life." They were also the recipients of other beautiful presents. Tables were spread and all partook of the wedding dinner. The 25th of Oct. 1899, will always be a bright time to refer to in the memories that will cluster around the mind in all future years to come. The desire of all is that they may have many years yet to live and enjoy continued happiness. Among those present from a distance were Mrs. Hull, Sioux Falls, S. D.; Miss Bess Wolfe, Patton, Pa.; Mrs. Kate Beech, Evansville; Mr. and Mrs. Earl Newton, Sr., Sullivan; Mrs. Cary, Miss Grace Brownell, Mr. and Mrs. Will Bishop, Mr. and Mrs. P. A. Hiram Bullock and daughter Mae and Mrs. Arnold Shumway and daughters, Junesville; Mr. and Mrs. McLean, Mr. and Mrs. S. Bullock, and Mr. and Mrs. C. Bullock, Whitewater.

McCoy Beats Billy Stiff.

St. Louis, Mo., Oct. 28.—In the thirteenth round of the fight here Friday night between "Kid" McCoy and Billy Stiff of Chicago the latter was knocked out by a right-hand swing on the jaw. Up to that time it was a splendid battle. It was a case of supreme cleverness against the brute strength of a physical giant. In the end the clever man conquered the strong fellow. But more than once during the engagement there was a chance that the Chicago man might win. McCoy did not seem to fight with any great strength, and had the other been a little faster he might have landed a winner.

St. Joseph's Smallpox Scare.

St. Joseph, Mich., Oct. 28.—Having been informed by City Physician A. H. Scott that the disease that exists in Benton Harbor is smallpox, although that is denied by many leading physicians of the city, the board of health decided to ask the state board of health to investigate the disease and report to the local board of this city. If Dr. Scott's opinion is substantiated by the state's authority, a quarantine against Benton Harbor will be established immediately.

Cut and pare eight mutton chops, season with salt and pepper and broil rare; dish up in a circle alternately with heart shaped slices of bread fried in small paper ruffs to the bones and serve. Gherkin sauce: Cut a carrot, an onion and two ounces of salt pork in small squares, put them in a saucepan with a bay leaf, a sprig of thyme, pepper, sprays of parsley and two ounces of butter and stir until a light brown; drain off the butter and put in a gill of vinegar, reduce to one-half, add a pint of cognac, or any thickened brown gravy and boil 10 minutes; skim and press through a napkin. Cut up gherkins and add to the sauce.

Some persons say they are never influenced by an advertisement.

It is not expected that any one will buy Ivory Soap solely because it is suggested by an advertisement, but if you have never used Ivory Soap, you may be induced to ask some friend about it; should you find—as you probably will—that she is enthusiastic in its praise, then you may try it.

Millions of people use Ivory Soap; they use it because they like it. You too will like it. There is a difference in soaps.

PROPOSED HOME FOR LABOR.

National Organizations May All Have Headquarters at Chicago.

Washington, Oct. 28.—A new settlement, to be the home of labor and the headquarters of national and international labor organizations, will soon be built under the auspices of the American Federation of Labor, and some point in Chicago will be selected for its location. The plan was seriously discussed at the meeting of the executive council of the federation in this city last week, and it was announced that offers of land and of large cash contributions for the buildings had already been made by Chicagoans.

The executive council instructed Samuel Gompers to go to Chicago at once to look over the ground and prepare a set of definite recommendations. He will be there next week, and give much time to a careful study of the possibilities. His report will be made to the coming convention of the federation in Detroit next December, when final action will undoubtedly be taken.

The proposal of the federation is broad and will have great importance for labor interests generally. When executed it will mark a decided advance in the development of labor organization in this country. It is hoped that in time all the national labor unions will be brought into line, and that with their headquarters all placed together, they may be helpful to each other in a higher degree than ever before.

To Build Dock at Cavite.

Washington, Oct. 28.—It is claimed in naval circles that, while very little is being said on the subject, it is the intention of the government to build at Cavite a naval station capable of accommodating the largest vessels in our navy. A dry dock is to be constructed that will entirely obviate the necessity of using the docking facilities at Hong-Kong, and the accompanying machine shops are to be complete in every particular. The matter will be laid before congress during the next session, and an appropriation asked for that will enable the department to carry out its full plans in this direction.

Supports Expansion Policy.

Terre Haute, Ind., Oct. 28.—Francis T. Roots of Connersville, a prospective candidate for governor, delivered an address before the Indiana State Normal school Friday, in which he spoke in positive terms in favor of expansion. He said the people showed their approval of this policy when the president was on his recent tour of the west. He declared that the United States could not wisely give up the Philippines. He believed the people were just beginning to realize the vastness of the commercial prospect in that direction.

BRYAN AND THE DECLARATION.

St. Louis Globe Democrat—Bryan has been again showing that he knows very little about the history of his country or of his party. President McKinley announces that the Philippines are to be held, and a government of law, of humanity at progress is going to be set up in them, the Filipinos to be allowed to participate in the government just as far and just as fast as they can, by the wise American laws, fitted for this work. Bryan, in a speech which he has just delivered in his swing round the circle in Kentucky, asserts that this is "the first announcement of a president of the United States against the spirit of the Declaration of Independence."

Of course there is no violation of the Declaration of Independence in the administration's course in the Philippines any more than there was in the acquisition of the province of Louisiana or Florida, and Bryan knows it. There was one president, however, who violated both the spirit and the letter of the declaration. This was James Buchanan, a man belonging to Bryan's party, whom Bryan would have enthusiastically supported if he had been old enough at the time. President Buchanan used all the power of his administration to fasten the Lecompton pro-slavery constitution of 1857 on Kansas, which was framed by rump convention which represented only one element of the people of the territory, and that the smaller element. An overwhelming majority of the people of Kansas, as Buchanan well knew, wanted the territory to be admitted as a state. Robert J. Walker, the territorial governor when Buchanan was appointed, and who was then and had been all his life a democrat, told this to Buchanan repeatedly. A clique in Washington, represented by Jefferson Davis, Howell Cobb, Jacob Thompson and a few other southern conspirators, had Buchanan in their grip, and he obeyed their behests in his Kansas policy rather than the desires of the people of Kansas.

Buchanan's assault on the principle of the "consent of the governed" right in his own country was so shameless that Douglas, the biggest man in the democratic party, opposed it in the senate and on the stump, and even Gov. Wise of Virginia, came out against it in a letter made public at the time, which excited a commotion among the Buchanan coterie. Another result was the resignation of Walker. Buchanan's conspiracy failed, of course, through the union of Douglas democrats with the republicans, for Kansas eventually came into the union as a free state, as an overwhelming majority of its citizens desired, but it was not let in until enough of the southern members of the senate, in the early weeks of 1861, had left their seats to join their states in secession. There were northern doughfaces at the time who favored Buchanan's attack on the principle of the "consent of the governed." Doubtless Bryan, if he had been old enough to take the stump at the time, would have called the persons who wanted to let the people of Kansas decide whether they would have slavery or not an enemy of the human race. But at the present time he would find this record a little embarrassing. If Bryan had even an elementary knowledge of the history of his party, he would skip all references to violations of the spirit of the Declaration of Independence.

MILK DEALERS WILL RAISE THEIR PRICES

MEETING IN MUNICIPAL COURT ROOM THIS WEEK.

Local Peddlers Claim That They Are Making No Profit These Days—Feed and Corn Are Too High in Price—Another Meeting Has Been Called.

Janesville peddlers of milk have decided that the present selling prices of milk and cream is altogether too low. At a meeting held in the municipal court room early this week they came to this decision.

Milk, which is now selling for five cents, will soon be six cents and cream will be thirty cents a quart in place of twenty-five cents, which is now the ruling figure.

Owing to disagreeable weather there was a small attendance in the court room when the meeting was called to order. The absence of a half dozen of the local dealer resulted in no definite action being taken by those present. Another meeting has been called.

At the present time the lack of organization among the dealers is the only thing that prevents it from going up to six cents, and that too, in a hurry.

A number of dealers were interviewed today and it was found that the supply was very short, and growing more so day by day. "We have only enough to supply our customers," said one of the largest milk dealers to a reporter. "Milk and cream are both scarce, and we will have to refuse persons who are not our steady patrons. Three years ago, when milk was so scarce, an effort was made to raise the price to six cents, but the majority of the milkmen failed to keep their word when the time came, and that settled it. We then concluded in the future to allow the others to fix the price and we will follow."

"But it should be selling for six cents under present conditions, and the milkmen will either have to go to that price before spring or else lose money, as feed of all kinds, especially bran and hay, is high in price. Cows are also dear in price, and for a good bovine you are obliged to pay now from forty to sixty dollars."

SPECULATE IN HISTORIC SPOTS What the Birthplace of Famous Men Are Worth as a Business.

Last year no fewer than 36,000 people passed the turnstiles which guard the entrance to the little room in which Burns first saw the light. In 1896, the centenary year of Burns' death, the number reached 35,000, and as 2 pence is demanded from each visitor a very simple calculation will show what a large sum of money is annually obtained by this means. The cottage is a very humble, one-storied little erection, with a thatched roof, and the poet's father, when he first went to live there, would have opened his eyes pretty widely had anyone been able to tell him what a sum was one day to be received for it. The place was bought from him (after the poet's death) by a corporation of shoemakers, who afterward sold it to the present trustees for \$30,000. Another famous birthplace which attracts a large number of people is that of Thomas Carlyle, at Ecclefechan, which is twenty or thirty miles north of Carlisle. There is no fixed scale of charges for visiting this cottage, but as 1,205 people climbed the stairs last year and each probably left something with the caretaker it will be easily seen that here, too, is a nice little property. There are other places, more or less well known, scattered about in different parts of England and Wales, which the tourist often visits. Shakespeare is still a veritable little gold mine to Stratford-on-Avon. People from all parts of the world make pilgrimages to the little Warwickshire town in order to see the famous poet's birthplace. The charge for admission to the house is 6 pence, but as an interesting museum is usually visited at the same time, for which an extra 6 pence is demanded, few persons leave the building without leaving 1 shilling behind them. Then there is Ann Hathaway's cottage to be also seen. This is a mile away from Stratford, at the pretty little village of Shottery, and it is where the poet's wife was wooed and won. The writer, during a recent visit to it, was informed that on an average 100 people a day all the year round came to see the cottage, and as each visitor pays 6 pence \$3,500 or \$4,000 a year must be made out of it.

Bank Notes of Ancient Times.

Among the products of civilization which were familiar to the Chinese many centuries before they came into use in Europe may be reckoned bank notes. There is at this moment in the possession of the Bank of England a specimen supposed to be one of the oldest extant, dating from the fourteenth century of our era. It is now proved, however, that paper money was issued in China as early as 807 A. D. These securities closely resembled the famous French assignats in being based upon the estates of the kingdom. The Bank of Stockholm claims to have been the first western institution to adopt a paper currency, but the Bank of England must have followed very close with its £20 notes, which were issued in 1696.—Kansas City Independent.

Next Tuesday evening is Halloween eve and to the small boy about town this means much. It means a night of revelry which carries with it boisterous deeds that in many cases are not excusable.

Chief of Police Hogan says that arrests will follow the same as they did last year, when certain Third ward boys were brought into court, if local youths go beyond the bounds of decency.

LOCAL SPEAKERS TOOK PART IN Y. M. C. A. BANQUET.

Session Proved a Most Interesting and Profitable One—Considerable Money Was Subscribed and Many New Members Admitted—Clinton Association Is Now Flourishing.

Members of the Young Men's Christian Association of Clinton, gave their annual banquet last evening, and eleven members of the Janesville Y. M. C. A. attended.

When the local delegation arrived in Clinton they were received in a most royal manner. In the association rooms covers had been laid for 130 guests and not a plate was to be seen without a representative when the meeting was once under way.

The following local speakers took part:

L. M. Ward, "Physical Work."

A. E. Matheson, "The Need of the Young Men in the Churches."

LECTURE COURSE BETTER THAN EVER

FIRST ENTERTAINMENT COMES NOVEMBER 6.

Program Is Most Complete This Year Embracing Several Good Attractions—Held in the Congregational Church—Large Attendance Assured—Those Who Appear.

The People's Lecture Course starts in on the twelfth season of high class entertainments with the London Glee Singers November 6. The public is pretty generally informed as to the character of the attractions: usual to the program of this course, and it is hoped it will be give the same generous attendance as in the past.

The course this season includes five lectures and musical numbers equally as strong as anything ever brought to the city; the price of tickets for the entire course is \$1, making it possible for every interested person to take advantage.

The first entertainment, as before stated, comes on November 6. The aggregation is Frank Pemberton's famous troupe of London Glee Singers. They give a delightful concert of "old English folk song, ballads, etc." The company is made up of selected noted English singers, and the entertainment will be decidedly novel and pleasing.

On Nov. 22 the Hon. J. P. Dolliver, congressman from Iowa, will give a lecture. His topic will be "The Nation of America." Mr. Dolliver is one of the brightest men in congress, and is famed for his witty epigrams and bright comparisons. He is was who first characterized President McKinley as "The Advance Agent of Prosperity."

On Dec. 4 Prof. George T. Herron will lecture on "Socialism." Prof. Herron has preached and lectured from Maine to California and his work has created a profound impression throughout the entire country.

The Mozart Symphony Club come on Jan. 5, 1900. This famous organization has been long before the public. It consists of an excellent string quartette, and each member is a soloist on rare instruments. Their program is more varied than any other company with three times as many soloists.

Muse. Florence Flower, the prima donna soprano, appears in the Mozart club for the first time. Her voice has a peculiar charm and pathos that appeals at once to the heart of the listener.

Rev. Wm. H. Quale of Indianapolis, Ind., comes next on the course, Feb. 20, 1900. His subject has not yet been announced, but whenever it is, it will be extremely interesting. There may be possibly another number added to the course after these five have been completed.

Season tickets can be procured at all drug stores, and should be purchased before the first number takes place.

SOFT COAL SCARCE IN JANESVILLE

FACTORIES FEEL THE SHORTAGE THESE DAYS.

Situation Here Is Getting More Serious Every Day.—Railroads Are Said to Be Looking Out First For Themselves—Many Manufacturers Depend On Steam.

Janesville is threatened with an actual soft coal famine. In fact the most serious shortage in the history of the city is in sight.

What makes the situation look dark for the users of Illinois coal is the fact that the railroad companies are seizing every car of coal that comes within their reach and simply refuse to make any explanation beyond saying that the car or cars are lost. The truth is the companies are having a hard time to keep enough coal on hand for their own use and whenever they see a car load it is sidetracked.

A local furniture factory has been in actual want of soft coal for several days past and unless relief soon comes a shut down is the only way out of the situation.

Local coal dealers are nearly all out of soft coal, and try as they will they cannot get a pound shipped in.

The Spring Valley strike has brought about in a measure the shortage, but local dealers say there was not enough coal on the market even before the strike.

How One Mother Saved Her Daughter

The first critical period in a woman's life comes at the passing of her girlhood. How to preserve the daughter's health at this crisis is the problem that confronts every mother of girls. Mrs. J. M. Riggs, of Cartersville, Mo., solved the problem. She says:

"My daughter Josie during the winter of 1897-98, suffered a complete breakdown in health. She was thin and pale, had no appetite, and was so weak that she was unable to walk to school. Those who knew her condition said that she was in the first stages of consumption. Shortly after school closed, on the advice of a neighbor, we began giving her Dr. Williams' Pink Pills for Pale People. The effect on her condition was marvelous. Before she had taken half a box her condition was improved, and she kept on gaining appetite, strength and flesh until she was entirely well."

"She took three bottles of the pills and to-day there is not a healthier, more robust looking girl in Cartersville. She is healthier and healthier than ever before in her life."

Mrs. J. M. Riggs.

Subscribed and sworn to before me, a Notary Public, this 15th day of October, 1898. Wm. Wolcott, Notary Public.

From the Journal, Cartersville, Mo.

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous debility, and after-effects of la grippe, palpitation of the heart, pale and sallow complexion, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are never sold by the dozen, but by the box, 6 boxes \$2.50. Retail druggists, or direct from the Dr. Williams Medicine Company, Schenectady, N. Y., 50 cents per box, 6 boxes \$2.50.

WEEKLY REVIEW OF TRADE.

Commercial Agencies Say War Has Aided Prosperity.

FEELING OF CONFIDENCE.

Large Purchases of War Munitions and Food in This Country Has Swelled Our Foreign Balance—Failures Show a Large Decrease.

New York, Oct. 28.—R. G. Dun & Co.'s weekly review of trade says:

"Fears and not facts made a war in South Africa seem a menace to prosperity here, and a week of conflict has cleared away the fear. British markets for securities have been helped by the belief that mining shares would be worth more with no Boer control in mining regions, and large purchases here of ammunition, packed meats and other army food have swelled the balance due this country. Money markets have grown less embarrassing, stocks have gradually advanced, industries are still supported by a volume of demand for which no precedent can be found, and payments through the principal clearing-houses for the last week have been 36.6 per cent larger than last year and 57.3 per cent larger than in 1892. So great an increase shows the net result of many and potent forces making for public prosperity."

"Failures for the week have been 190 in the United States, against 226 last year, and 23 in Canada, against 24 last year."

Bradstreet's says:

"As regards the current activity in transportation, it may be said that east-bound traffic from Chicago in the last month has been more than double that reported in the same period a year ago, and nearly twice as large as that reported in October of 1892, a record period of good trade. Among leading products decreasing in price, tin and copper, among the metals, have been most notable, the latter claimed to be due to production approaching more to a parity with demand. The situation of iron and steel is perhaps the most notable one yet presented. The feature of the market is the reported booking by the steel rail mills of the country of nearly 75 per cent of their capacity for next year's delivery. In all 1,500,000 tons of rails are reported to have been booked."

"Wheat (including flour) shipments for the week aggregate 6,416,495 bushels, against 4,160,618 bushels last week, and 5,560,991 bushels in the corresponding week of 1898. Corn exports aggregate 4,525,519 bushels, against 5,058,697 bushels last week and 2,424,376 bushels in this week a year ago."

Must Pay Tax or Quit State.

Des Moines, Iowa, Oct. 28.—The Supreme court Friday decided against the foreign insurance companies in their attempt to prevent the collection of the tax of 3½ per cent on their gross premium receipts, as required by the new state law. They are required to pay this tax before they can secure certificates from the auditor of state allowing them to do business in the state.

Show Indiana Divorce Record.

Indianapolis, Ind., Oct. 28.—The state bureau of statistics has completed a table on divorces in Indiana for the year ending June 30, 1899, based on returns from every county, the first of its kind accurately prepared. It shows 2,482 divorces granted in the year, which was over 10 per cent of the number of marriage licenses issued in the same period.

Plans for Kaiser.

London, Oct. 28.—The Berlin correspondent of the Daily Mail says: "All the arrangements have been completed for Emperor William's visit to the queen. His majesty will arrive in Eng-

land on Nov. 20 and remain at Windsor castle five days, after which he will go to Sandringham for a two days' visit to the prince of Wales."

More Warships for Kaiser.

Cologne, Oct. 28.—The well-informed Rheinisch Westphalian Gazette asserts that at the next session of the reichstag the first business to be taken up will be that of building more vessels for the navy. Work on the ships now being built will be hurried forward. The great feature of the session will be the discussion of the question of the need of more battleships.

Want \$200,000 for Missions.

Cleveland, Ohio, Oct. 28.—There was a good attendance at the second day's session of the Women's Foreign Missionary society of the Methodist Episcopal church. A committee was appointed to raise \$200,000 among women toward the great twentieth century offering to be made by the Methodist churches for missionary work.

Great Britain Signs Convention.

London, Oct. 28.—Lord Pauncefoot of Preston, on behalf of Great Britain, Friday signed The Hague peace convention. Great Britain does not adhere to the adaptation of the Geneva convention to naval warfare, nor to three declarations of the peace conference.

Daily But Slightly Ill.

GRIEF FOR GENERAL HENRY.

Brave Army Officer's Death Is Mourned by Officials.

Washington, Oct. 28.—The death of Gen. Guy V. Henry in New York was announced to the war department Friday in a dispatch from Lieut. Traub, aide de camp on the general's staff. The interment will be at Arlington National cemetery next Monday. The announcement was received with heartfelt expressions of regret from Secretary Root, Adjt.-Gen. Corbin and other high officials, as well as from the rank and file about the war department, for Gen. Henry was a well-known figure here and universally esteemed.

The interment at Arlington will be with full military honors. The grave selected as the final resting place of the gallant soldier is on the slope at the east front of the Lee mansion, near the graves of Sheridan, Crook and Ord.

Gen. Henry's death has the effect of leaving vacant the command of the department of the Missouri, to which he was recently appointed. It has the further important effect of creating another vacancy in the grade of brigadier-general in the regular army, Gen. Henry standing fourth on the list.

SPOONER MAY FOLLOW MASON.

Wisconsin Senator Also Talks of Resigning Because of the War.

Milwaukee, Wis., Oct. 28.—The Journal prints the following: "A gentleman high in republican councils stated today, upon reading the threat of United States Senator Mason of Illinois to resign in case the republican national convention did not declare against 'criminal aggression' in the Philippines, that some time ago United States Senator John C. Spooner had said he expected that the administration's Philippine policy would compel him (Spooner) to retire from public life."

Several Wisconsin newspapers have recently printed gossip of this kind about the senator, one story being that he was in Madison the day President McKinley was there and failed to appear. None seems to know positively whether he was in the state at that time or not, but his friends in Milwaukee say he was in Connecticut.
